Reno, Nevada 89502

Enviroscientists can help you with your State and Federal agency file review. This is particularly important if you have acquired a property with a past history. All correspondence, plans, permits, inspections, annual, and quarterly reports are kept on file with the State and Federal agencies in either paper or microfiche form providing invaluable information for a new owner. Enviroscientists can collect the data and provide hard copies or scan to a .PDF file.
